

Detail Sander with Integrated Flashlight

This detail sander is equipped with an integrated flashlight to improve visibility in dimly lit areas. It is designed for fine sanding work and comes with sanding pads, a battery, and a charger, all encased in clam shell packaging.

Product Overview

Precision Sanding with Enhanced Visibility

This 18-volt detail sander is engineered for precision tasks, allowing users to achieve smooth finishes in tight corners and intricate spaces. A standout feature is the integrated flashlight, which significantly improves visibility in low-light environments, ensuring accuracy during operation. The kit comes complete with sanding pads, a battery, and a charger, providing a ready-to-use solution for professional detail work.
