

Detergent Powder Production Machine with Paddle Mixing

This industrial machine is designed for the efficient production of detergent powder. It features a mixing chamber with a paddle system to ensure thorough blending of raw materials and consistent powder quality.

Product Overview

Professional Detergent Production Solution

This industrial-grade machine is engineered for the efficient production of various detergent products, including powders, granules, and pastes. Utilizing a specialized paddle mixing system, it ensures uniform blending of raw materials to meet high-quality standards. The equipment is versatile enough to produce a wide range of specialized detergents, from concentrated laundry powders to industrial cleaners and soap powders.

Technical Features

Mixing System	Paddle Mixing System
Material Construction	Stainless Steel
Product Types	Washing Powder, Detergent Granules, Washing Paste, Concentrated Detergent, Industrial Detergent, Soap Powder, Bleach Powder

Service & Support

Lab Services	Yes
Turnkey Plant Design	Yes
