

Diagonal Cutting Pliers

These diagonal cutting pliers feature high leverage for efficient material cutting. Induction hardened cutting edges provide extended life and durability.

Product Overview

High-Leverage Diagonal Cutting Pliers

These high-leverage diagonal cutting pliers are engineered for efficient cutting of a wide range of materials. Featuring induction-hardened cutting edges, they offer superior durability and a long service life for demanding tasks. The ergonomic grip design ensures comfort and precise control, making them an ideal choice for professionals in electrical, construction, and general-purpose applications.

Technical Specifications

Cutting Type	Diagonal
Edge Treatment	Induction hardened

Features

Grip Design	Ergonomic
Applications	Electrical, Construction, General Purpose
