

Diagonal Cutting Pliers

These diagonal cutting pliers are designed for cutting wires and small metal components. They feature hardened steel jaws for durability and precise cutting, along with ergonomic handles for comfortable use.

Product Overview

Professional Diagonal Cutting Pliers

These advanced American-style diagonal cutting pliers are engineered for precision and durability. Designed to handle wire cutting and small metal components, they are an essential tool for electrical work, jewelry making, and various general-purpose applications. With hardened jaws and an ergonomic design, these pliers ensure reliable performance and reduced hand fatigue during extended use.
