Product Overview

High-Performance Diamond Abrasive Sheet

This diamond abrasive sandpaper sheet is engineered for precision grinding and polishing of hard materials, including stone, ceramic, and glass. Featuring a high-quality diamond surface with a 1000 grit rating, it ensures effective material removal and a smooth, professional finish. The inclusion of a 3M adhesive backing allows for secure attachment to various tools or surfaces, while the flexible design enables users to cut the sheet into custom shapes for specialized applications.

Technical Specifications

Grit Rating	1000
Compatible Materials	Stone, Ceramic, Glass
Backing Type	3M Adhesive
Material Flexibility	Yes
Customizable Shape	Yes

Performance Metrics

Key Performance Features

- Effective material removal
- Precision grinding capability
- Polishing and shaping functionality
- Secure adhesive backing
