

Diamond Abrasive Waterproof Sandpaper

This sandpaper is designed for fine finishing and polishing tasks. It utilizes a diamond abrasive and durable backing to remove material efficiently and create a smooth finish on surfaces like metal, plastic, and wood.

Product Overview

Professional Diamond Abrasive Sandpaper

This high-performance waterproof sandpaper utilizes premium diamond abrasives to deliver superior material removal and an exceptional surface finish. Engineered for wet sanding applications, it effectively minimizes dust and improves overall surface quality. Its durable backing ensures longevity, making it a versatile tool for professionals working with metal, plastic, and wood.

Technical Specifications

Key Features

- Waterproof backing for wet applications
- Diamond grit for efficient finishing
- Dust reduction capabilities
- Versatile material compatibility

Abrasive Material	Diamond
Application Method	Wet Sanding
Compatible Materials	Metal, Plastic, Wood
