## Product Overview

### Professional Diamond Carving Burrs

These diamond-coated carving burrs are engineered for precision engraving, shaping, and grinding across a diverse range of materials, from ultra-hard to soft surfaces. Designed for compatibility with hand-held rotary tools, cordless drills, and CNC equipment, they deliver consistent performance and efficiency. With a robust design that ensures long-lasting durability and excellent balance, these tools are ideal for intricate carving tasks requiring high stability and control.

## Technical Specifications

### Available Diameters

- 6mm
- 8mm
- 10mm

### Total Length

60 mm

### Construction Type

Electroplated, Sintered

## Operational Parameters

### Recommended RPM

**9000 RPM**

Min Speed

**35000 RPM**

Max Speed

### Usage Requirements

- Must be used with coolant
- Compatible with hand-piece drills
- Compatible with cordless drills
- Compatible with CNC machines

## Commercial Details

### Certifications

ISO9001 • SGS

### Minimum Order Quantity

20 Pieces

### Delivery Time

7-12 days upon receipt of payment
