

Diamond Core Drill Bit

This diamond core drill bit is designed for creating precise holes in hard materials, including concrete, tile, stone, and masonry. It features a durable steel body with diamond-impregnated cutting segments for exceptional cutting speed and a long lifespan.

Product Overview

High-Performance Diamond Core Bit

The Diamond Crown Core Bit is a high-performance drilling tool engineered for creating precise, clean holes in hard materials including concrete, tile, stone, and masonry. Built with a durable steel body and diamond-impregnated cutting segments, it delivers exceptional cutting speed and an extended operational lifespan. This versatile tool supports both wet and dry drilling applications, ensuring reliable performance across various job site conditions for construction, plumbing, and electrical professionals.

Technical Specifications

Compatible Materials

- Concrete
- Tile
- Stone
- Masonry

Construction

Steel Body • Diamond-Impregnated Segments

Drilling Modes

Wet Drilling, Dry Drilling

Performance Metrics

Key Performance Indicators

1 Vibration-free

Operation

1 Extended

Lifespan
