Product Overview

Professional Diamond Core Drilling Solution

This oil-immersed diamond core drilling machine is engineered for high-performance drilling in dense materials like concrete, stone, and masonry. Designed for stability and precision, it features a robust motor capable of handling a maximum drilling diameter of 250mm. Its oil-immersed system ensures smooth operation and durability, making it an essential tool for construction, renovation, and infrastructure projects.

Technical Specifications

Rated Input Power

4880 W

Power Output

Max Drilling Diameter	250 mm
No-Load Speed	540 rpm

Electrical Requirements

Rated Voltage	110V, 220V
Rated Frequency	50-60Hz

Dimensions and Logistics

Weight Specifications

Weight Type	Value (kg)
Net Weight	24
Gross Weight	26

Packing Size	930 x 380 x 240 mm
