

Diamond Core Drilling Machine

This diamond core drilling machine has an input power of 1650W and a maximum drill bit diameter of 90mm. Its no-load speed reaches 2200r/min at 220V-240V/50Hz.

Product Overview

Professional Diamond Core Drilling Machine

This high-performance diamond core drilling machine is engineered for precision and durability in demanding construction environments. Featuring a powerful 1650W motor and stepless speed control, it provides the versatility required for various professional applications, including plumbing and electrical installations. Its robust straight-barrel design, combined with efficient fan cooling, ensures reliable operation and consistent performance during intensive drilling tasks.

Technical Specifications

Rated Power

1650 W

Rated Output Power

Drilling Performance

2200 r/min

No-load Speed

90 mm

Max Drilling Diameter

Electrical Requirements

- Voltage: 220V
- Power Supply: AC
- Cooling System: Fan cooling

Design & Construction

Physical Characteristics

Attribute	Detail
Weight	10 kg
Structure	Straight barrel type
Speed Control	Stepless

Key Features

Stepless Speed • Fan Cooling • Straight Barrel Design
