

Diamond Cutting Wheel

High-performance diamond cutting wheel designed for precision cutting of hard materials such as tile, stone, and concrete. It features a segmented rim for efficient debris removal and enhanced cooling, ensuring a clean and fast cut.

Overview

High-Performance Cutting Solution

This diamond cutting wheel is engineered for precision cutting of challenging materials, including tile, stone, and concrete. Its segmented rim design facilitates efficient debris removal and enhanced cooling, which promotes a faster, cleaner cut. Built for stability, the core is optimized for balance and reduced vibration during operation.

Technical Specifications

Suitable Materials

- Tile
- Stone
- Concrete

Compatible Tools

Angle Grinders, Circular Saws

Rim Type

Segmented

Performance Features

Performance Highlights

Reduced Vibration • Efficient Debris Removal • Enhanced Cooling • Precision Cutting
