

Diamond Grinding Wheel

This high-precision grinding wheel is designed for cutting and grinding applications. It features a diamond-impregnated edge and cooling vents for efficient material removal and reduced heat buildup.

Product Overview

High-Precision Diamond Grinding Wheel

This high-precision abrasive grinding wheel is engineered for efficient material removal and extended service life. Featuring a durable construction with a diamond-impregnated edge, it ensures consistent performance across demanding cutting and grinding tasks. The integrated cooling vents significantly reduce heat buildup during operation, protecting both the tool and the workpiece from thermal damage.

Technical Specifications

Key Design Features

- Diamond-impregnated edge
- Integrated cooling vents
- High-precision abrasive surface

Compatible Materials

Stone, Tile, Glass, Ceramics

Usage Information

Tool Compatibility

Angle Grinders • Compatible Power Tools

Primary Applications

- Shaping
- Sharpening
- Finishing
