

# Diamond Hole Saw Set - 6 Piece

This 6-piece diamond hole saw set is designed for cutting clean, precise holes in glass, tile, ceramic, porcelain, and other hard materials. It includes a variety of hole saw sizes and a centering guide for accurate hole placement.

## Product Overview

### Professional Diamond Hole Saw Set

This 6-piece diamond hole saw set is engineered for high-precision drilling in demanding materials such as ceramic, vitrified brick, marble, and granite. Featuring a robust #45 steel body and advanced artificial diamond coating, these tools ensure efficient material removal and long-lasting performance. The set is designed to meet the rigorous standards required by contractors, plumbers, and electricians, providing clean, accurate holes for various installation projects.
