Overview

Diamond Polishing Pads

These diamond polishing pads are engineered for high-performance grinding and polishing on marble and granite surfaces. Designed with a flexible body, they effectively contour to edges, corners, and winding surfaces to deliver a smooth, high-gloss finish. The advanced resin binder and diamond micro-powder construction ensure rapid heat dissipation and a long operational lifespan.

Technical Specifications

Color-coded grit guide for easy identification during the polishing process.

Grit and Color Guide

Grit	Color
60#	Black
150#	Yellow
300#	Red
500#	Grass-green
1000#	Blue
2000#	Magenta
3000#	Green

Compatible Materials

Marble, Granite

Performance Features

Flexible abrasive disc designed for effective material removal and contouring.

Key Benefits

- Strong grinding power
- Fast polishing speed
- High gloss output
- Rapid heat dissipation
- Quiet operation
- Flexible body for contouring

Logistics and Support

OEM/Customization	Yes
Standard Delivery Time	5-30 days
Accepted Payment Terms	T/T, L/C, D/A, D/P, Paypal
