

# Diamond Saw Blade for Brick and Block Cutting

This professional diamond saw blade is designed for cutting normal brick, hard brick, glutinous brick, and blocks. It features diamond-impregnated segments for efficient and precise cutting and includes cooling holes to reduce heat and extend blade life.

## Product Overview

### Professional Diamond Saw Blade

This professional-grade diamond saw blade is engineered specifically for efficient and precise cutting of various masonry materials, including normal brick, hard brick, glutinous brick, and blocks. Constructed with high-quality diamond-impregnated segments, it ensures durability and long-lasting performance in demanding construction environments. The blade design incorporates specialized cooling holes to effectively dissipate heat during operation, significantly extending the tool's service life.

## Technical Specifications

### Compatible Materials

- Normal brick
- Hard brick
- Glutinous brick
- Blocks

### Key Features

Diamond-impregnated segments, Cooling holes, Heat reduction, Extended blade life

## Usage

### Application Areas

Construction • Masonry
