

Diamond Saw Blade for Concrete and Stone

This diamond saw blade is designed for efficient and precise cutting of concrete, stone, and other hard materials. The blade features laser-welded segments with high diamond concentration for extended life and optimal cutting performance.

Product Overview

Professional Diamond Saw Blade

This professional-grade diamond saw blade is engineered for efficient and precise cutting across a variety of hard materials, including concrete and stone. Featuring laser-welded segments with a high diamond concentration, it offers extended blade life and consistent performance. Designed for versatility, it is suitable for both wet and dry cutting applications, making it an ideal choice for construction, demolition, and renovation projects.

Technical Specifications
