Product Overview

Professional Diamond Saw Blade

This high-performance diamond saw blade is engineered for professional cutting applications across demanding materials. It features a durable steel core paired with precision-engineered diamond segments to ensure efficient, clean cuts every time. Designed for longevity, the blade incorporates specialized cooling slots that effectively reduce heat buildup and facilitate debris removal during operation.

Technical Specifications

Design Features

- Durable steel core
- Precision-engineered diamond segments
- Integrated cooling slots for heat reduction
- Optimized for debris removal

Diameter	300 mm
Compatible Materials	Concrete, Stone, Masonry, Tile
Color	Red
