

Diamond Saw Blade for Concrete Stone

This diamond saw blade is designed for dry cutting applications. It features a segmented rim for efficient material removal and enhanced cooling.

Product Overview

Professional Diamond Saw Blade

This professional-grade diamond saw blade is specifically engineered for efficient dry cutting of concrete, stone, and masonry materials. Featuring a segmented rim design, it ensures rapid material removal while providing enhanced cooling during intensive use. Constructed with high-quality diamond grit, this blade offers a superior balance of cutting speed and long-term durability for demanding construction tasks.

Technical Features

Rim Design

Segmented Rim

Cutting Method

Dry Cutting

Core Material

High-quality diamond grit

Application & Compatibility

Compatible Equipment

- Angle Grinders
- Circular Saws

Target Materials

Concrete, Stone, Masonry

Compliance & Standards

Standard Code

MPA90605
