

Diamond Saw Blade for Hard Materials

This diamond saw blade is designed for cutting hard materials such as concrete, stone, tile, and masonry. It features diamond-impregnated segments and cooling slots for efficient and precise cutting.

Product Overview

High-Performance Diamond Saw Blade

This diamond saw blade is engineered specifically for cutting hard materials, including concrete, stone, tile, and masonry. It features a robust steel core with diamond-impregnated segments along the rim, ensuring both efficiency and precision during operation. Designed for durability, the blade includes cooling slots to effectively reduce heat and manage debris buildup, making it a reliable choice for demanding cutting tasks.

Technical Specifications

Compatible Tools

- Angle Grinders
- Circular Saws

Compatible Materials

Concrete, Stone, Tile, Masonry

Design Features

Cooling System

Yes

Core Material

Steel core with diamond-impregnated segments
