

# Diamond Saw Blade for Hard Materials

This diamond saw blade is designed for cutting hard materials such as concrete, stone, and masonry. It is manufactured with premium-grade diamond grit for extended blade life and precise cuts.

## Product Overview

### High-Performance Diamond Saw Blade

This diamond saw blade is engineered for demanding cutting tasks involving hard materials like concrete, stone, and masonry. It features a segmented rim design that promotes efficient material removal and improved cooling during operation. Designed for versatility, this blade is suitable for both wet and dry cutting applications, delivering optimal speed and minimal vibration.

## Technical Specifications

### Operating Modes

Wet Cutting • Dry Cutting

### Cutting Applications

Concrete, Stone, Masonry

### Rim Design

Segmented

## Compatibility

### Compatible Power Tools

- Angle Grinders
- Circular Saws

## Key Benefits

### Performance Highlights

**1 Minimal**

Vibration Level

**1 Efficient**

Material Removal
