

Diamond Saw Blade for Marble Cutting

This diamond saw blade is designed for cutting marble. It features diamond-impregnated segments bonded to a steel core, ensuring efficient and clean cuts.

Overview

Precision Marble Cutting Solution

This diamond saw blade is engineered specifically for clean and efficient cutting of marble surfaces. Featuring a high-quality steel core with diamond-impregnated segments, it ensures smooth and precise cutting performance. The blade is designed for compatibility with standard angle grinders and circular saws, making it a versatile tool for professional masonry and stone fabrication tasks.

Technical Specifications

Compatible Tools

- Angle Grinders
- Circular Saws

Construction

Steel core with diamond-impregnated segments
