

Diamond Saw Blade for Material Cutting

This diamond circular saw blade is designed for cutting various materials. It features a durable construction for extended life and efficient cutting action.

Product Overview

High-Performance Cutting Solution

This diamond circular saw blade is engineered for precision and durability across various material cutting applications. Designed with a robust construction, it ensures extended service life and consistent, efficient cutting performance. It is an ideal choice for both professional construction tasks and demanding DIY projects.

Technical Specifications

Blade Diameter	200 mm
Blade Diameter (Inch)	8 in
Arbor Size	25.4 mm
Kerf Thickness	2.2 mm
Blade Body Thickness	1.6 mm
Segment Thickness	2 mm
Grit Rating	40

Key Features

Blade Type

Turbo Disc • Diamond

Model Identifier

MB20001
