

# Diamond Saw Blade for Stone Cutting

This diamond saw blade is designed for slotting and cutting stone materials. It features durable construction and sharp cutting edges for efficient and precise performance.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Diamond Blade

This professional-grade diamond saw blade is engineered for high-precision slotting and cutting of stone materials. Featuring sharp, durable cutting edges, it is designed to deliver efficient performance for demanding construction and renovation projects. The robust construction ensures long-term reliability and consistent results for industrial-grade applications.

## Technical Specifications

### Dimensions

**114 mm**

Outer Diameter

**20 mm**

Inner Bore

**1.8 mm**

Thickness

### Key Features

- Professional-grade diamond segments
- High-efficiency material removal
- Optimized for concrete and stone
- Durable construction for extended life

### Applications

Stone Cutting, Slotting, Concrete Floor Grinding, Surface Preparation
