Product Overview

Professional Diamond Cutting Solutions

This collection of professional-grade diamond saw blades is engineered for high-performance cutting across a variety of construction and masonry materials. Featuring durable steel cores and precision-engineered diamond-impregnated edges, these blades ensure fast material removal and an extended service life. Whether you require segmented blades for aggressive concrete cutting or continuous rims for chip-free tile finishing, these tools are designed for reliability in demanding professional environments.

Technical Specifications

Compatible Materials

- Concrete
- Stone
- Masonry
- Ceramic Tile
- Porcelain
- Granite
- Marble

Key Dimensions

230 mm

Diameter

22.2 mm

Bore Size

Blade Types

Segmented, Continuous Rim

Usage & Compatibility

Compatible Tools

- Angle Grinders
- Tile Saws

Cutting Methods

Dry Cutting • Wet Cutting
