Overview

Smart Solar Security Lighting

The Diamond Solar Wall Lamp provides an innovative, energy-efficient lighting solution designed specifically for outdoor security. Combining high-efficiency solar charging with sensitive motion detection, it ensures reliable illumination whenever needed. The integrated anti-theft alarm system adds a sophisticated layer of security, making it an ideal choice for residential or commercial perimeter lighting.

Key Features

Security Capabilities	Motion Sensor, Anti-theft Alarm, Light Sensor
Anti-Theft Sensitivity	15 degrees

Technical Specifications

Power Supply	Solar Energy
Usage Environment	Outdoor
Alarm Type	Audible Warning
