

Diamond Tile Squaring Wheel

This diamond squaring wheel is designed for squaring the edges of tiles without the need for water. It is suitable for use on inner wall tiles and rustic tiles, offering good sharpness, quick heat dissipation, and low noise during operation.

Product Overview

Diamond Dry Squaring Wheel

This diamond dry squaring wheel is engineered for precision edge finishing on inner wall tiles and rustic tiles. Designed for dry operation, it provides excellent sharpness and efficient heat dissipation, ensuring a clean finish while maintaining low working noise levels. It is a reliable solution for professional tile processing and edge squaring applications.
