

# Die-Cast Aluminum Electric Grill Pan with Non-Stick Surface

This electric grill pan is constructed from die-cast aluminum for even heat distribution and durability. Its non-stick surface ensures effortless food release and easy cleaning.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Electric Grill

This durable die-cast aluminum electric grill pan is designed for efficient and even heat distribution, making it an ideal solution for indoor grilling. It features a versatile non-stick surface that ensures easy food release and simplifies the cleaning process. With an adjustable thermostat and a dedicated grease collection system, this appliance offers a convenient and healthy way to prepare a variety of meals, from meats to vegetables.

## Technical Specifications

### Power Consumption

**1200 W**  
Power

### Voltage Compatibility

120V, 220V

## Design & Build

### Cooking Surface Size

40 x 25 cm

### Construction Material

Die-cast aluminum

## Features

### Core Functionalities

- Non-stick cooking surface
- Removable adjustable thermostat
- Integrated oil drop holes
- Grease collection tray
- Cold touch base

## Maintenance

### Cleaning & Care

Dishwasher safe • Easy clean surface
