

Die-Cast Aluminum Outdoor Lighting Fixtures

These outdoor lighting fixtures are constructed with die-cast aluminum bodies and clear glass diffusers. They operate within a voltage range of 220-240V at 50-60Hz and are rated IP44 for protection against water and solid objects.

Product Overview

Professional Outdoor Lighting Solutions

These versatile outdoor lighting fixtures are engineered with durable die-cast aluminum bodies and clear glass diffusers, ensuring longevity and reliable performance in exterior environments. The collection offers a variety of configurations including wall lamps, floor lamps, and spotlights, making it suitable for diverse architectural and landscape lighting needs. Designed for safety and efficiency, each unit features an IP44 rating and Class I protection, providing essential resistance against the elements.
