Product Overview

High-Performance Die-Cast LED Bulb

This high-performance LED T bulb features advanced die-casting construction, specifically engineered for enhanced durability and superior thermal management. Designed for optimal light distribution and significant energy savings, it is an ideal solution for various professional lighting applications. The bulb ensures consistent, efficient illumination with a standard screw base for easy installation.

Performance Metrics

Key Performance Metrics

90 Ra

CRI (Color Rendering Index)

50000 hours

Lifespan

Performance Features

High Brightness, Low Light Attenuation, Thermal Management

Technical Specifications

Construction	Die-casting
Base Type	Standard Screw Base
Shape	T Bulb

Benefits

Key Advantages

- Enhanced durability through die-casting
- Superior thermal management
- Energy-efficient operation
- Consistent light output
