

# Diesel and Gasoline Water Pump

This water pump is available in diesel and gasoline models. It is engineered for efficient water transfer and reliable performance in demanding environments.

## ADDITIONAL IMAGES

## Overview

### Versatile Water Pumping Solutions

This comprehensive range of water pumps is engineered for high-performance fluid transfer in both diesel and gasoline configurations. Designed for durability and efficiency, these units are suitable for a wide variety of applications, ranging from general water movement to specialized chemical and high-pressure tasks. With options for different capacities, head heights, and engine power levels, these pumps offer reliable performance for demanding environments.

## Operational Features

### Engine Power Range

**2.6 Hp**

Minimum Power

**16 Hp**

Maximum Power

### Supported Pump Types

Diesel Powered, Gasoline Powered, Trash Pump, Chemical Pump, Cast Iron, High Pressure

## Technical Specifications

### Select Model Specifications

Model	Inlet/Outlet	Max Capacity	Weight
WP20D	50mm	30 m <sup>3</sup> /h	41
WP30D	80mm	60 m <sup>3</sup> /h	49
WP60D	150mm	145 m <sup>3</sup> /h	136
WB30 TRASH	80mm	78 m <sup>3</sup> /h	56

### Suction Head Capacity

7 m
