

## Diesel Engine - ETK E110F(E)

This diesel engine is designed for power generation applications. It offers reliable operation and efficient fuel consumption.

### ADDITIONAL IMAGES

### Overview

#### High-Performance Diesel Engine

This diesel engine is engineered for fast starting, smooth operation, and low noise, ensuring reliable performance across various industrial and commercial applications. Built with high-quality components, it offers excellent fuel efficiency and durability for demanding power needs. The unit features international quality certifications and is designed for easy maintenance and long-term service life.

### Technical Specifications

#### Available Power Ratings

- 5HP
- 7HP
- 10HP
- 12HP
- 14HP
- 22HP

Rated Speed	3600 rpm
Quality Certifications	CE, ISO 9001

### Maintenance & Support

#### Included Accessories

- Standard operation manual
- Technical maintenance manual
- Tool kits

Warranty	1 year
