

Diesel Engine for Industrial and Agricultural Use

This diesel engine is designed for a range of agricultural and industrial applications. It features direct injection for efficient fuel combustion and high power output.

Product Overview

High-Performance Industrial Diesel Engine

This robust diesel engine is engineered for demanding agricultural and industrial applications, featuring a direct injection system for efficient fuel combustion. Its compact yet durable construction ensures long-lasting reliability even in harsh environments. Equipped with a heavy-duty air cleaner and exhaust system, it delivers consistent power output for various heavy-duty machinery.

Performance Metrics

Performance Highlights

10 HP

Standard Output

13 HP

Maximum Output

Technical Specifications

Model	SF35
Injection System	Direct Injection
Engine Type	Diesel

Design & Construction

Core Features

- Heavy-duty air cleaner
- High-efficiency exhaust system
- Compact design
- Durable construction

Applications

Suitable Industries	Agriculture, Industrial Machinery, Power Generation
---------------------	---

Safety & Compliance

Safety Status

High Pressure Hazard Warning
