

Diesel Engine Fuel Injector 0414401105

This fuel injector is designed for diesel engines. It provides precise fuel delivery for optimal performance and efficiency.

ADDITIONAL IMAGES

Overview

High-Performance Fuel Injection Solution

This unit pump injector is engineered for optimal fuel delivery and combustion efficiency in compatible diesel engines. Designed for precision, it ensures reliable atomization to maintain engine performance and fuel economy. Built with durable materials, this component meets stringent industry standards for long-lasting operation and consistent reliability in demanding automotive applications.

Technical Details

Included Components

- Unit Pump Injector
- Spring
- Seals

Part Number

0414401105

Application Type

Diesel Engine, Fuel Injection System, Automotive

Packaging Quantity

1 St/Pc

Performance

Key Performance Features

Precision Engineered • Optimal Atomization • High Durability • Fuel Efficient
