

Diesel Engine Fuel Injector Nozzle

This fuel injector nozzle is designed for diesel engine fuel injection systems. It atomizes fuel and delivers it into the combustion chamber with optimal spray patterns to ensure efficient combustion and reduced emissions.

Product Overview

High-Performance Diesel Injector Nozzle

This high-precision diesel engine fuel injector nozzle is engineered for optimal fuel atomization and delivery into the combustion chamber. Designed to withstand high pressures and temperatures, it ensures efficient engine combustion and reliable performance in demanding automotive and industrial environments. Built with durable steel, this component meets strict quality standards to support consistent operation.

Technical Specifications

Body Material	Steel
Weight	0.04 kg
Fuel Compatibility	Diesel
Cylinder Compatibility	Multi-cylinder
Carburettor Type	Downdraft
Stroke	Standard

Compliance & Quality

Certifications	ISO9001, TS16949
Warranty Period	6 Months
HS Code	84099199

Compatibility Reference
