

Diesel Engine Fuel Pipe

This diesel fuel pipe is designed for use in fuel systems. It is constructed from durable materials to withstand the harsh conditions of a diesel engine environment.

Product Overview

High-Durability Diesel Fuel Line

This diesel engine fuel pipe is engineered for reliable performance in demanding fuel system environments. Constructed from robust, flexible materials, it is designed to withstand the harsh conditions typical of diesel engine operation while ensuring easy installation and routing. The inclusion of spring clamps facilitates secure, leak-proof connections, making it an ideal solution for replacing worn or damaged fuel lines in various small machinery applications.

Compatibility & Application

Compatible Brands

- HONDA
- YAMAHA
- ROBIN
- STIHL
- KAMA
- KIPOR
- YANMAR

Compatible Equipment

Small Generator, Water Pump, Chainsaw

Technical Features

Installation Features

Flexible Design • Leak-proof • Easy Routing

Included Components

Spring clamps for secure connection
