

Diesel Engine Pencil Fuel Injector

This pencil injector is designed for fuel delivery in diesel engines. It is suitable for John Deere 300 Series and 4219D models.

Product Overview

Diesel Engine Pencil Fuel Injector

This pencil-style fuel injector is engineered for precise fuel delivery in heavy-duty diesel engine applications. Its compact and slender design ensures compatibility with specific engine series, facilitating efficient combustion and reliable performance. This component is essential for maintaining optimal engine power and fuel efficiency in industrial and automotive machinery.

Compatibility & Identification

Engine Compatibility

- 300 Series (N.A.)
- 4219D

Primary Part Number

27333

Alternative Part Numbers

AR89563, AR89564

Package Details

Quantity per Set

6 pcs

Technical Specifications

Injector Type

Pencil Injector
