Overview

Marine Diesel Engine Spare Parts

These high-quality spare parts are designed for compatibility with major marine diesel engine series. With over 20 years of industry experience, the components are engineered to meet exacting standards for durability and performance. The inventory supports a wide range of engine configurations and versions, ensuring reliable operation for marine and power generation applications.

Compatibility

Supported Models

- L/S35MC-C
- L/S42MC
- L/S46MC
- L/S50MC-C
- L/S60MC-C
- L/S70MC-C
- L/S80MC-C

Supported Design Versions

MARK III • MARK V • MARK VI • MARK VII • MC-C7 • MC-C8 • MC-C9

Compatible Engine Series

MC, MCE, MC-C

Component Inventory

Available Part Categories

Part Code	Description
90101	Cylinder Head Assembly
90201	Piston and Piston Rod Assembly
90301	Cylinder Liner Assembly
90801	Exhaust Valve Assembly
90901	High-Pressure Fuel Pump Assembly
90910	Fuel Injector Assembly
91210	Main Bearing Shell
