

Diesel Engine Turbocharger HX35W

This diesel engine turbocharger HX35W is designed for QSB6.7 engines. It enhances engine performance by increasing air intake for improved combustion efficiency and greater power output.

Product Overview

The HX35W turbocharger assembly showing the high-quality casting and housing.

High-Performance Diesel Turbocharger

The HX35W turbocharger is engineered specifically for diesel engines to enhance combustion efficiency and overall power output. By increasing air intake, it significantly improves horsepower and torque for both automotive and industrial machinery applications. This robustly designed component is built to withstand high temperatures and pressures, ensuring a long service life and reliable operation in demanding environments.

Technical Specifications

Precision-engineered turbine housing designed for optimal thermal management.

Model Series

HX35W • HX35W-66

Compatible Engine Model

QSB6.7

Engine Type

Diesel engine

Identification

Close-up of the technical identification plate showing part numbers and model compatibility.

Interchange Part Numbers	4039044, 4039043, 4039631, 4955158, 4035158, 3350092
Place of Origin	China

Commercial Terms

Warranty

6 Months

Warranty Coverage

Accepted Payment Terms	T/T, L/C at Sight, Western Union, Money Gram, PayPal
------------------------	--

Logistics & Delivery

PACKAGING

 SUNON

Standard export packaging including neutral cartons and wooden crates for secure transit.

Packing Details

- Original packing
- Neutral packing
- Custom branded boxes (with authorization)

Lead Time	Within 3-7 working days after payment receipt
Trade Terms (Incoterms)	EXW, FOB, CFR, CIF, CNF
Loading Ports	Shanghai, Ningbo, Shenzhen, Guangzhou, Qingdao, Tianjin
