

Diesel Fuel Injector 0445120213

This diesel fuel injector is designed for optimal fuel delivery. It features advanced nozzle technology for precise fuel atomization, contributing to improved combustion efficiency and reduced emissions.

Product Overview

High-Performance Diesel Fuel Injector

This diesel fuel injector, part number 0445120213, is engineered for optimal fuel delivery and superior engine performance. Designed to meet stringent original equipment specifications, it ensures long-term reliability and durability for heavy-duty applications. The unit features advanced nozzle technology that provides precise fuel atomization, which contributes significantly to improved combustion efficiency and reduced exhaust emissions.

Technical Details

Part Number	0445120213
Manufacturing Origin	China
Packaging Unit	1 PC

Key Features

Performance Benefits

- Precise fuel atomization
- Improved combustion efficiency
- Reduced emissions
- OEM specification compliance

Compliance & Quality	OEM Standard, New Condition
----------------------	-----------------------------
