

Diesel Fuel Injector Nozzle for Volvo

This fuel injector nozzle is engineered for diesel common rail systems. It optimizes fuel atomization and spray processes for enhanced diesel engine performance and reduced emissions.

Product Overview

Diesel Fuel Injector Nozzle

This diesel fuel injector nozzle is engineered for common rail systems, playing a critical role in fuel atomization and combustion efficiency. Designed for compatibility with Volvo engines, it ensures precise fuel delivery to the combustion chamber. The component is built from durable steel to withstand high-pressure operating environments and meets stringent quality standards for reliable performance.

Technical Specifications

Precision-engineered diesel fuel injector nozzle for common rail systems.

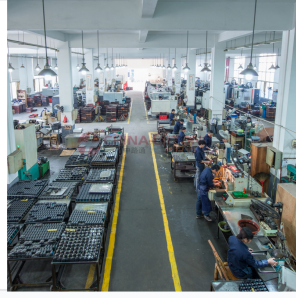

High-durability nozzle component designed for optimal fuel atomization.

Body Material	Steel
Fuel Type	Diesel
Cylinder Configuration	Multi-cylinder
Carburettor Type	Downdraft
Stroke	Standard
Weight	0.04 kg
HS Code	84099199

Compliance & Warranty

Certifications	ISO9001, TS16949
Warranty	6 Months

Compatibility Reference

Common rail components engineered for Volvo engine efficiency.

Reference Compatibility
