

Diesel Generating Set with Super Silent Enclosure

This diesel generating set is designed for reliable power generation. It features a super silent enclosure, ensuring minimal noise during operation.

Overview

High-Performance Silent Power Generation

This series of diesel generating sets is engineered for superior noise insulation and reliable power output. Utilizing advanced global technologies, these units feature a compact, durable structure designed for easy maintenance and low operational noise levels. They are suitable for diverse industrial and commercial applications requiring a dependable power source.

Technical Specifications

Generator Series

- TFS Series
- TFW2 Series
- Stamford Type
- Le Roy Sommers Type

Compatible Engine Types

Shanghai/Nantong, Weichai, Yangdong, Volvo, Deutz, Cummins, Perkins

Quality & Compliance

Certifications

ISO 9001:2008 • ISO 9001:2000 • CE • UL

Key Features

Design Advantages

- Super silent enclosure
- Advanced noise absorption technology
- Compact structural design
- Low noise operation
- Easy maintenance access
