

Diesel Generator LB5000WH

The LB5000WH diesel generator is a robust power solution for various applications. It provides dependable electricity with a durable engine and rugged frame, ensuring long-lasting performance.

Overview

Reliable Power Solution

The LB5000WH diesel generator is a robust and dependable power source engineered for demanding environments. Designed for versatility, it serves as an excellent solution for construction sites, emergency backup power, and outdoor events. Its durable engine and rugged frame ensure consistent performance, while safety features like overload and low-oil protection provide peace of mind during operation.

Technical Specifications

Engine Power

10 HP

Engine Power

Model Identifier

C13

Features

Key Features

- High-capacity fuel tank for extended run times
- Integrated overload protection
- Low oil level safety shutdown
- Rugged industrial frame
- Easy-to-use control interface

Applications

Suitable Applications

Construction Sites, Emergency Backup, Outdoor Events, Industrial Use
