

Diesel Generator SDG5500CLE

This diesel generator is designed for a variety of power needs. It features direct injection technology for efficient fuel consumption and consistent performance.

Product Overview

Robust Diesel Power Solution

The SDG5500CLE is a reliable diesel-powered generator engineered for consistent performance in various operational environments. With direct injection technology and a 389cc 4-stroke engine, it offers excellent fuel efficiency and steady power output for essential equipment. Its versatile design features both recoil and electric starting mechanisms, housed in a sturdy, portable frame equipped with wheels.

Engine Specifications

Engine Configuration

Feature	Specification
Displacement	389cc
Type	4-Stroke, Single cylinder
Cooling	Air cooled
Injection	Direct Injection

Operation

Starting System	Recoil Start, Electric Start
-----------------	------------------------------

Technical Specs

Fuel Tank Capacity	15 L
Noise Level (@7m)	85 dB(A)
Fuel Source	Diesel
