

Diesel Generator Set

Diesel generator sets provide power ranging from 5kW to 1500kW. Available in open, weatherproof, silent, and container types, they serve as regular or backup power in various sectors.

Overview

Industrial Power Solution

This diesel generator set offers a versatile power range from 5KW to 1500KW, making it suitable for a wide array of industrial and commercial applications. Engineered for efficiency, the system provides stable output with low fuel consumption and excellent starting performance. It is designed to serve as a reliable primary or backup power source for hospitals, industrial facilities, and large infrastructure projects.
