

Diesel Generator Set, 180-1300kW Power Range

This diesel generator set provides power ranging from 180 to 1300kW. It features a heavy-duty engine coupled with a robust alternator for efficient power generation.

Overview

Industrial Power Solutions

This diesel generator set offers a versatile power range from 180kW to 1300kW, engineered for reliable standby and prime power applications. Designed for industrial and commercial environments, the unit features a robust base frame with an integrated damping system to ensure stability and longevity. Advanced control systems allow for precise monitoring and protection, making it a dependable choice for critical power needs.

Performance

Power Range

180 kW

Minimum Power

1300 kW

Maximum Power

Technical Specifications

Engine Series	Heavy-duty industrial diesel engine
Alternator Compatibility	Stamford, Marathon, Engga
Control System	Suspension type control box with HGM6310 controller

Construction

Base Frame Construction

- Channel steel welding
- Built-in composite damping system
- Sandblasting treatment
- Acid-washing treatment
- Antiseptic treatment

Radiator Ambient Temperature Rating	40 °C
