

Diesel Generator Set, 180-1300kW

Heavy-duty diesel generator set designed for continuous, standby, and prime power applications. The generator features a robust engine coupled with a high-efficiency alternator, providing reliable power output.

Overview

Industrial Power Solutions

This diesel generator set offers a versatile power range from 180kW to 1300kW, suitable for a variety of industrial and commercial applications. Engineered for reliability, the system features a robust engine and high-efficiency alternator options to ensure consistent performance. The unit is built with a reinforced base frame and advanced cooling systems to maintain optimal operation in demanding environments.

Performance

Power Output Range

180 kW

Minimum Power

1300 kW

Maximum Power

Technical Specifications

Engine Type	Heavy-duty diesel engine
Alternator Options	Stamford, Marathon, Engga
Control System	Suspension type control box with integrated controller

Construction

Base Frame Construction

- Channel steel welding
- Built-in composite damping system
- Sandblasting treatment
- Acid-washing treatment
- Antiseptic treatment

Radiator Specifications	40 °C
