

Diesel Generator Set, 18kW-2660kW, 50/60Hz, 230/400V

This diesel generator set provides power ranging from 18kW to 2660kW with options for 50Hz or 60Hz, and 230V or 400V. It features a heavy-duty engine coupled with a high-output generator, mounted on a sturdy steel frame.

Overview

Industrial Diesel Power Generation

This diesel generator set offers a versatile power range from 18kW up to 2660kW, making it suitable for a wide array of industrial and commercial applications. Engineered for continuous, reliable operation, the system features a robust heavy-duty engine and high-output generator mounted on a durable steel frame. Equipped with advanced cooling and filtration systems, it ensures stable and consistent power output in demanding environments.

Technical Specifications

Power Output Range

18 kW

Minimum Power

2660 kW

Maximum Power

Frequency

- 50
- 60

Voltage

230V, 400V

Design & Construction

Key Components

Heavy-duty engine • Steel frame • High-output generator • Advanced cooling system
