

Diesel Generator Set, 18kW-2660kW Power Range, 230/400V

This diesel generator set provides a power output ranging from 18kW to 2660kW. It supports 50Hz/60Hz frequencies and 230V/400V voltage, with a 3-phase configuration.

Overview

Industrial Power Solutions

This diesel generator set offers a versatile power range from 18kW to 2660kW, making it suitable for a wide variety of industrial, commercial, and emergency backup applications. Engineered for reliability and robust performance, these units are designed to provide consistent power output in demanding environments. The standard voltage configuration of 230/400V ensures compatibility with most industrial electrical systems.

Technical Specifications

Power Range

18 kW

Minimum Output

2660 kW

Maximum Output

Fuel Type

Diesel

Voltage Output

230/400V

Applications

Typical Applications

- Industrial Power Generation
- Commercial Backup Power
- Emergency Standby Systems
