

Diesel Generator Set, 20 kVA - 1500 kVA

This heavy-duty diesel generator set is designed for industrial applications. It features a robust engine coupled with a high-efficiency alternator, providing reliable power generation.

Product Overview

Industrial Diesel Power Solution

This series offers reliable diesel power generation ranging from 20 kVA to 1500 kVA. Designed for high-demand environments, these units provide exceptional reliability with reduced maintenance requirements. They are engineered to serve as dependable primary or backup power sources across critical sectors like mining, transportation, and industrial infrastructure.

Technical Specifications

Power Output Range	20 kVA - 1500 kVA
Target Industries	Mining, Transportation, Industrial Engineering, Critical Infrastructure

Key Features

Performance Metrics

20 kVA Minimum Power	1500 kVA Maximum Power
--------------------------------	----------------------------------

Operational Advantages

- High reliability in demanding environments
- Low cost of ownership and maintenance
- Robust base frame for stability
- Integrated control panel for critical parameter monitoring
