

Diesel Generator Set, 20kW-1200kW

This diesel generator set provides efficient and consistent power output. It is suitable for a wide range of applications, providing dependable backup or primary power.

Product Overview

High-Performance Industrial Power Solutions

These professional-grade diesel generator sets offer reliable power generation ranging from 20kW to 1200kW to meet diverse industrial and backup requirements. Engineered for high performance, the units feature advanced fuel systems and multiple air-absorbing configurations to ensure optimal torque, fuel efficiency, and consistent power output. Built for durability and ease of maintenance, these generators include integrated self-protection functions and are available in various configurations including mobile, low-noise, and remote-controlled units.

Technical Specifications

Power Range

20 kW

Minimum Output

1200 kW

Maximum Output

Air Absorbing Methods

- Natural
- Pressure adding
- Midway cooling
- Double pressure adding

Unit Configurations

Key Performance Benefits

Light weight • High power • Strong torque • Low oil cost • Self-protection function

Available System Types

Common Type, Mobile Power Trailers, Automation, Remote Control, Low-Noise, Telemetry, Remote Inquiry, Multi-Parallel, Emergency Power Supply Vehicle
